The Menorah Park Adult Day Care provides stimulating programs for adults experiencing memory loss (including mild to advanced Alzheimer's and dementia), physical challenges, developmental disabilities or social isolation. Client driven programming and structure maximizes a sense of purpose and meaning while participating in a variety of creative, cognitive, physical, social and expressive activities. Special attention to personal care needs and assistance with activities of daily living are all supported by professional and highly trained staff in a safe, secure and lively environment. Accessible hands on care is provided by a registered nurse along with continuous case management to enhance each individual's quality of life. Nutritious meals, overseen by dietitians, are provided on site with a variety of choices. Transportation is available to and from the center within our service area on wheelchair accessible, heated and air conditioned buses.
